Cool. I figured something got lost in translation. 3:30 is getting awfully late for the press conference, but think we can swing it if ICC is OK with it.

Mary-Yes let's definately chat!! It was not "reported" at a recent meeting. At a meeting I let her know that we requested a time change for the press event and that I was told it was unlikely bc of tight sched and that they needed to weigh in ... That's all. I also asked to talk w her further then and yesterday - she gets a bit inflamed sometimes ... Please accept my apologies, I did not intend to cause angst, just trying to communicate! :)

Let us first check if the Mayor still has availability ...

We got a call from Carol Johnston from the Ironbound Community Corp very upset because she said that it was reported out in a recent meeting that EPA said we couldn't move the time of the meeting because the ICC wouldn't like it or wouldn't want it. I think something got lost in translation here...one of the foibles of email. I went back to look at my email because I didn't intend to say no definitively. I wrote in that email that the schedule was tight and I'd have to check in with David and Elias. In part, this was because I wanted to have them see what ICC thought of the schedule change before we made a decision, as they ahve been working directly with ICC.

Can we please chat today and maybe see if we can't get this straightened out? If ICC is willing to move their tour schedule around (I believe there are two planned tours), then we'd certainly be amenable to moving the time of the press conference. I am happy to call Carol and explain that there seems to have been a misunderstanding.
